The LSF is pleased to invite you to the following lunch seminar:

The Political Economy Field Experiments Become Possible

*By Professor Ron Harstad
University of Missouri, USA*

**Wednesday, 23rd March 2011
From 01:00 PM to 2:00 PM**

The Political Economy Field Experiments Become Possible

By Ron Harstad

An important part of a field experiment measuring the effectiveness of a proposed policy (social, environmental, public good provision, etc.) would be to gather information about its allocative efficiency. Efficiency measures are a standard part of lab experiments in economics. The talk will explain how efficiency is measured in the lab, why that method cannot be used in the field, and propose a new definition and new method that would allow observing allocative efficiency in the field. Initial demonstrations of the methodology will be discussed.

The **Luxembourg School of Finance**

Is pleased to invite you to the

LSF Seminar
